WK			
Course Type	☐ CEP		

1 Course Outline as per SoS

The primary objectives of this course are to:
• Foster a creative mindset that leverages AI to identify and validate market opportunities.
• Equip students with coding and computing skills to automate financial tracking and operational workflows.
• Integrate Cybersecurity best practices into the legal and structural setup of a new venture.
• Develop high-level communication skills for pitching to stakeholders and managing cross-functional teams.
• Analyze the economic and ethical implications of business within a globalized, tech-driven market.

2 Course Objectives as per SoS

In an era defined by rapid technological shifts, this course bridges the gap between traditional business creation and modern digital fluency. Students will explore the entrepreneurial journey—from ideation to global scaling—while embedding Co-Intelligence (AI), Coding, and Cybersecurity into their business models. The course emphasizes financial sustainability, data-driven decision-making, and the ethical use of technology to solve real-world problems. By the end of the course, students will not just write a business plan; they will architect a secure, automated, and scalable digital enterprise.

5. Entrepreneurship: A Contemporary Approach by Donald F. Kuratko and Richard M. Hodgetts, 5th Edition
6. Magazines: Harvard Business Review & Entrepreneurship

4 Course Learning Outcomes (CLOs)

After successful completion of this module, you will be able to:

Theory CLOs:

1. Evaluate market opportunities and personal entrepreneurial readiness to synthesize creative solutions for complex problems. (C5–PLO10)
2. Apply economic theories to simulate pricing strategies and analyze market equilibrium. (C4-

PLO12)

3. Create a comprehensive business plan that present innovative business idea. (C6-PLO11)

CLO	PLO	Bloom Taxonomy Domain	Bloom Taxonomy Level
1	PLO10: Communication	Cognitive	C5 – Evaluating
2	PLO12: Lifelong Learning	Cognitive	C4 – Applying
3	PLO11: Project Management	Cognitive	C6 – Creating

PLOs Coverage Explanation

PLO10 – Communication This PLO is selected because entrepreneurship requires the ability to critically evaluate ideas and communicate them effectively to stakeholders, investors, customers, and team members. Students assess market opportunities and articulate strategic decisions through pitches, reports, and discussions, demonstrating high-level evaluative communication skills.

PLO12 – Lifelong Learning Entrepreneurship operates in a rapidly evolving technological and economic environment. This PLO aligns with students' ability to apply economic theories, digital tools, AI integration, and market analysis techniques to real-world business scenarios. It reflects adaptability, continuous learning, and the practical application of emerging knowledge.

PLO11 – Project Management This PLO is appropriate because students develop and create a comprehensive, secure, and scalable business plan. The course requires planning, organizing resources, integrating technology, managing risks (including cybersecurity), and executing venture strategies—core competencies of effective project management.
